

10025 39th Ave NE
(beyond the intersection of 39th Ave NE & NE 100th St)

Categories entered: Planting Strip
Volunteers: Patty & Bill Lavelle
Year Built: n/a
Years: 20
Size: ~25 ft long

Description: This unimproved planting strip (no curb) is typically used to park upon. However, the Lavelles use theirs to brighten the road! This strip looks especially nice in spring and summer, attracting people to stop and admire, and take a picture or two. This garden is 100% organic, using homemade compost and leaf mulch. Beyond the planting strip lies a vegetable garden.

2004 Plant List: Pachysandra, strawberries, spirea, delphinium, forget-me-not, columbine, lavender, coral bells, daises, iris, poppies, liatris, love-in-the-mist, crocosmia, geranium.

SDOT observations: This planting strip has no sidewalk and no curb. The flower garden gradually turns into a vegetable garden.

Mulched: Yes
